

## Halal QC Assessment

Kindly answer the following questions:

1. What is the Balance of User A & B?

- User A Balance = 1000 and his max. Balance = 1005 LE
- User B Balance = 100.55 and his max. Balance = 105 LE
- User A wants to Transfer or "Send Money" 100 LE to User B

2. In a system designed to work out the tax to be paid:

An employee has £4000 of salary tax free. The next £1500 is taxed at 10%, The next £28000 is taxed at 22% Any further amount is taxed at 40%, To the nearest whole pound, which of these is a valid Boundary Value Analysis test case?

- £1500
- £32001
- £33501
- £28000

3. If the user wants to login, he should enter the phone number and OTP:

- OTP input accepts 6 digits.
- If the user enters wrong OTP 4 times, he/she should enter the phone number again to generate a new OTP.

**List down the valid and invalid scenarios.**

4. I have 1 product in an e-commerce platform ex: Mobile:

- The user can add to his cart only 2 items from the same product.
- Stock quantity is 10 for this product.

**List down the valid and invalid scenarios.**

5. Given a REST API <https://api.agify.io/?name=meelad>

- Write a simple test case using any **Api testing framework** that asserts on the returning values
- Do the same test case using **Postman**

6. Given Login Page <http://www.testyou.in/Login.aspx>

- Write a UI Test case with any **UI Automation Framework** that will assert that on writing invalid username or password “User Id or Password did Not Match!!” will appear
